**Subject:** Indoor Air Sampling Results  
**Attachments:** Table01\_On-siteAirAnalyticalResults.pdf

Good Afternoon Charles,

During our Indoor Air sampling event back in February, I recall you and Pete requesting the sample results in advance of our annual report (due 6/30/2020) so you could do a preliminary review. A few weeks ago we finally received all of our validated results, so I wanted to share the attached table with you. The table (Table 1 from the annual report) contains a subset of our sampling results, which include the Aerojet Rocketdyne COCs. New sample results, collected after Q1 2019, are highlighted in green. Instances where our results exceeded the screening levels are highlighted in blue.

Please let me know if you have any questions. If not, please expect the full annual report by the end of June.

Thanks,

**Peter Kvam**
